ALPHA PHI ALPHA FRATERNITY, INCORPORATED
The Founding Jewels

The Founders of Alpha Phi Alpha Fraternity, Inc., affectionately known as the Jewels, were no ordinary achievers. Given the racial attitudes in 1906, their accomplishments were monumental. As Jewel Henry Arthur Callis stated, the half-dozen African American students at Cornell University during the school year 1904-05 did not return to campus the following year, the incoming students in 1905-06 were determined to bind themselves together to ensure that each would survive in the racially hostile environment. In coming together, "they remained steadfast to the ideal of a Greek letter fraternity, who did not waver in their efforts to bring about the realization of their vision, and who dared to be pioneers in an untried field of student life." These young men of daring became exceptional examples of scholarship, leadership and tenacity.

Henry Arthur Callis became a practicing physician, Howard University Professor of Medicine and prolific contributor to medical journals. Often regarded as the "philosopher of the founders," and a moving force in the Fraternity's development, he was the only one of the "Cornell Seven" to become General President. Prior to moving to Washington, D.C., he was a medical consultant to the Veterans Hospital in Tuskegee, Alabama. He also was a founding member of the American Medical Association. Upon his death in 1974, at age 87, the Fraternity entered a time without any living Jewels. His papers were donated to Howard's Moorland-Spingarn Research Center.

Charles Henry Chapman entered higher education and eventually became Professor of Agriculture at what is now Florida A&M University. A university funeral was held with considerable Fraternity participation when he became the first Jewel to enter Omega Chapter in 1934. Described as "a Brother beloved in the bonds," Chapman was a founder of FAMU's Beta Nu Chapter. During the organizational stages of Alpha Chapter, he was the first chairman of the Committee on Initiation and Organization.

Eugene Kinckle Jones became the first and longest serving Executive Secretary of the National Urban League. A versatile leader, he organized the first three Fraternity chapters that branched out from Cornell—Beta at Howard, Gamma at Virginia Union and the original Delta at the University of Toronto in Canada. In addition to becoming Alpha Chapter's second President and joining with Callis in creating the Fraternity name, Jones was a member of the first Committee on Constitution and Organization and helped write the Fraternity's ritual. Jones also has the dual distinction of being one of the first initiates as well as an original founder. He died in 1954.

George Biddle Kelley became the first African American engineer registered in the state of New York. Not only was he the strongest proponent of the Fraternity idea among the organization's founders, the civil engineering student also became Alpha Chapter's first President. In addition, he served on committees that worked out the grip and ritual. Kelley was popular with the Brotherhood. He resided in Troy, New York and was active with Beta Pi Lambda Chapter in Albany. He died in 1963.

Nathaniel Allison Murray pursued graduate work at Cornell University after completing his undergraduate studies at Howard. He later returned home to Washington, D.C., where he taught in public schools. Much of his career was spent at Armstrong Vocational High School in the District of Columbia. He was a member of Alpha Chapter's first Committee on Organization of the new fraternal group, as well as the Committee on the Grip. The charter member of Washington's Mu Lambda Chapter was a frequent attendee of General Conventions. He died in 1959.

Robert Harold Ogle entered the career secretarial field and had the unique privilege of serving as a professional staff member to the United States Senate Committee on Appropriations. He was an African American pioneer in his Capitol Hill position. He proposed the Fraternity's colors and was Alpha Chapter's first secretary. Ogle joined Kelley in working out the first ritual and later became a charter member of Washington's Mu Lambda Chapter. He died in 1936.

Vertner Woodson Tandy became the state of New York's first registered black architect, with offices on Broadway in New York City. The designer of the Fraternity pin holds the distinction of being the first African American to pass the military commissioning examination and was commissioned First Lieutenant in the 15th Infantry of the New York State National Guard. He was Alpha Chapter's first treasurer and took the initiative to incorporate the Fraternity. Among the buildings designed by the highly talented architect are Saint Phillips Episcopal Church and Madame C. J. Walker's mansion in New York City. He died in 1949, at age 64.

THE LEGACY EDUCATION FOUNDATION

THE LEGACY EDUCATION FOUNDATION

Scholarship, Leadership and Service

The Legacy Education Foundation was originally named The Tau Lambda Chapter Education Foundation, Inc. The foundation was established in 1978 as a 501(c)3 public charity. The name recently changed to The Legacy Education Foundation to better align with its modern mission. It has realized many accomplishments during its thirty-six year existence and the years of investments in educational and leadership programs are paying off and changing the lives of young men as planned. Since its inception, the foundation has contributed to the scholarship funds of Fisk University, Tennessee State University and to the United Negro College Fund. In 1999, the Foundation established a $10,000 Tuition Assistance Scholarship at Fisk University, and in 2003 it established a $25,000 Tuition Assistance Scholarship Endowment Fund at Tennessee State University.

Funds given to The Legacy Education Foundation further the educational and philanthropic mission of the Foundation by promoting leadership, and by providing educational scholarship programs for the benefit of qualified candidates. The Foundation recognizes students who have demonstrated leadership skills, academic achievement and a commitment to community service.

The Foundation believes in the high ideals of the Fraternity, and that these ideals should be sustained and asserted. Your support makes it possible to help prepare tomorrow's leaders and for academically talented youth to experience a vital aspect of college life.

The work of the foundation is made possible by the generous support of corporations, local businesses, friends and contributions of Fraternity members. We appreciate the trust placed in its endeavors. A fifteen-member volunteer board of directors guides the foundation's efforts.

Gabriel William Hutchinson graduated with honors from East Nashville Magnet High School, where he was vice president of the National Honor Society. Gabriel also participated on the track and cross-country teams, the Student Government Association, and performed with the East Magnet Choir. Gabriel represented his school as a Boys State Delegate, hosted the 2018 Mayor's Youth Summit as a member of the Mayor's Youth Council; participate in the Nashville Debate League, and was a summer intern for the law offices of Sherrard, Roe, Voigt and Harbison. Marcellous Lindsley is a graduate of East Literature HS in the class of 2018. I currently attend THE Illustrious Fisk University with a major in business. In highschool my vision was to use my platform from my performing arts to shed light on intentions of society, real world experiences, and building a better community for my people. Now that vision has evolved into something better, and with my degree I will receive from Fisk I can embark on those endeavors. Some include investing in and supporting black businesses and funding schools and houses for the less fortunate. I believe that a way to bring an end to the generational curse for the whole entire African American/Black population involves someone to bring issues to light and someone to start the circulation of investing amongst yourselves. I am a first generation highschool graduate and college student. After graduation I will not only pursue the goals listed above, but also pursue a higher education. Along with being a leader in society I am also a leader at home. My younger siblings motivate me to do what I do and I choose to take that motivation and put in back into my community and people. Thank you men of Alpha Phi Alpha, not only for the scholarship opportunity, but also being model men for me so I could be one for my family and community.

Melvin D. Ferguson

Born August 7, 1947 in Providence, Kentucky to Dr. and Mrs. John R. Ferguson (Geneva). Being the son of a physician and educator, Bro. Ferguson's parents instilled in him the importance and value of an education at an early age. He began his elementary education in his mother's one-room classroom. As a child he was very inquisitive and his thirst for knowledge led him to advance quickly through school graduating high school at the age of 16. He attended Murray State University where he studied chemistry and psychology. There he joined the ROTC and was commissioned as an officer in the US Army in 1969. He served a brief period on active duty and then continued on to serve in the US Army Reserves for 28 years. He retired at the rank of Lt. Colonel.

On January 11, 1969 while matriculating at Murray State University, he and 14 other men chartered the Zeta Omicron chapter of Alpha Phi Alpha Fraternity Inc. This was the first black Greek letter organization on campus and he served as the first chapter president. In 2019, the University recognized the Zeta Omicron chapter for 50 years of continued excellence. He was honored, along with his wife Vanna, as Grand Marshals of the homecoming parade.
